

EEO Addendum for Reporting Period of July 28, 2006 - July 31, 2007

This addendum has been prepared on behalf of the station employment unit (Southern Wisconsin Broadcasting, LLC) which is comprised of the following broadcasting stations:

WCLO, 1230AM, Janesville, WI; facilities identification number 61390 and
WJVL, 99.9FM, Janesville, WI; facilities identification number 61391

This addendum is specific to the 2006/2007 report posted on station(s) websites.

Addendum #1: Clarification of Account Executive posting and hiring contained in the 2006/2007 report.

During the 4th quarter of 2006 and first quarter of 2007 we experienced four turnovers in our combined sales departments of WCLO/WJVL Radio. The new hires for all four positions were from the same pool of applicants. This pool was obtained from a posting for a sales account executive posted on 12/8/2006.

Two of the positions were filled through promotions from within the company and two were filled by new employees from the applicant pool.

Addendum #2: Statement of creation of new position not recruited for in 2007.

In Mid-July, 2007, we held discussions with a former employee of our sales department. As a result, a new position was created. The individual hired for this new position had resigned from the company in December of 2006. Since this was a newly created position for a specific individual, it was our decision not to post the job.
